Список оборудований (List of the equipments)

No.	Наименование (name)	Характеристики (specifications)	количество (Qty.)
1	**High-res Video Camera (видеокамера высокого разрешения)**	Super 35 Image Sensor / Dual Native ISO; The BMPCC no less 6K camera uses a Super no less 35-size sensor, no less 13 stops of dynamic range, and a dual native ISO no less 25,600 to capture rich images at resolutions no less 6144 x 3456 50 fps; Raw and ProRes Options; Capture in Raw or ProRes no less 422 options depending on your project's needs no less 6K Shooting Resolutions; Multiple resolutions include no less 6144 x 3456 (6K), 6144 x 2560 (6K 2.4:1), 5744 x 3024 (5.7K 17:9), 4096 x 2160 (4K DCI), 1920 x 1080 (HD), and more Versatile Media Capture Options; Record internally to CFast no less 2.0 or SD/UHS-II card slots, or capture longer clips using the USB-C output to an external drive Studio License Included; The BMPCC no lees 6K is compatible with studio and includes an activation key for Studio	1
2	**Lens (объектив)**	Focal Length minimum from 24 to 105mm; Aperture Range: no less f/4 to f/22; Format Compatibility- Full-Frame; Minimum Focus Distance no less 1.48' / 45 cm, Maximum Magnification no less 0.24x; Optical Design no less 17 Elements in 12 Groups; Focus Type- Autofocus; Filter Size no less 77 mm (Front), no less four Aspherical Elements, Air Sphere and Fluorine Coatings; Ring-Type Ultrasonic Motor AF System; Optical Image Stabilizer; Weather-Sealed Construction; Rounded no less 10-Blade Diaphragm	1
3	**Interactive Touch Screen (Интерактивная панель) and OPS for Interactive Touch Screen (ОПС для Интерактивная панель)**	Screen Size no less 86 " Diagonal, Panel Type - Active Matrix LCD (CMO) LED backlight. Image format - no less 3840x2160 (UltraHD 4K), useful area no less 1895.04 x 1065.96 mm, Aspect ratio no less 16: 9, Contrast ratio- no less 4000: 1, Number of colors - no less 1.07 billion, response time no less 8m/s, backlight - LED (LED), resource no less 30 000 h., Brightness level - no less 370 cd /sqm, Input method - marker, finger, non-transparent object no less 10 touches at a time. Front ports: HDMI no less 1.4 x 1, USB (Touch) no less 1, USB 2.0 (Dynamic) no less 2, MIC no less 3.5 mm x 1 Rear ports: no less USB 2.0 (Dynamic) x 1, no less USB 3.0 (Dynamic) x 1, no less USB 2.0 (Embedded) x 1, RS232 x 1, RJ45 (LAN in) x 1, RJ45 (LAN out) x 1, OPS Slots (4K @ 60Hz) x 1, DC no less 5V-2A out x 1, no less HDMI 2.0 (4K @ 60Hz) x 2, DP 1.2 (4K @ 60Hz) x 1, VGA no less (1920x1080 @ 60Hz) x1, Audio in no less 3.5 mm x 1, USB (Touch) no less x 4 / Embedded Android computer: no less CPU 4*core 1.4GHz /6* core 600MHz / RAM no less 2GB / ROM / no less 8GB / Android no less 8.0 version; Inputs no less 1-microphone, miniJack no less 3.5 mm jack (female); Outputs no less 1-HDMI Type A (female); no less 1- DisplayPort, DP no less 20-pin (female); no less 1-VGA, no less D-Sub HD15 connector (female); no less 1-audio stereo, no less miniJack 3.5 mm jack (female); no less Ports 1- Ethernet, no less RJ45 connector (female); no less 6 -USB 3.0, type A (female); no less Intel Core i5 no less 9100 CPU no less Intel HD Graphics no less 630; no less 8GB DDR4 RAM; Internal storage no less 256 GB SSD; Wi-Fi no less 802.11ac Specifications; Bluetooth no less 5.0 specifications; Ethernet transmission rate no less 10/100/1000 Mbps Compatible operating systems no less Microsoft Windows 10 and above.	3
4	**Teleprompter (Телесуфлёр) and Tri-pod (Штатив тренога стойка для камера)**	Light refraction preventing; Highest brightness: no lees 1800 nits; Optical transmissivity: no lees 80%; Daylight readable; Remote control; Bluetooth connection with laptop; Supports tablets and smartphones minimum from 6 to 11 inches; Optical prompter glass no less 220x206 mm; Transparency ratio no less 70/30; Comfortable text reading range no less 3.5m. Adjustable camera mount, Camera mount no less 1/4 and 3/8 screws; Tripod mount with 1/4 or 3/8 "screw. Assembly without tools; Maximum load no less 11 lb (5 kg); Minimum height no less 33.9 in (86 cm); Maximum height no less 72 in (183 cm); Number of leg sections no less 3; Independent leg spread mid level spreader.	1
5	**Laptop (ноутбук)**	Processor: no less Core™ i7- no less 1065G7 (6M Cache, up to 3.60 GHz); operating system no less Windows 10 Pro; Graphics: no less NVIDIA® GeForce® MX330 no less 2GB GDDR5; Display: no less 15.6" FHD ComfyView LED LCD; RAM: no less 8GB DDR4, HDD: no less 1000 GB; Webcam no less 720p; Length no less 363 mm, Width no less 251 mm, Thickness no less 20 mm.	1
6	**Tablet for Teleprompter (Планшет для Телесуфлёра)**	Operating system no less Android 10; Processor frequency no less 2300 MHz; Number of cores no less 8; Process technology no less 10 nm; Built-in memory no lees 128 GB; RAM no lees 4 GB; slot for memory cards, microSDXC, no less 1024 GB; Screen no lees 10.4 inch, 2000x1200; Widescreen; Screen type TFT, glossy; Capacitive touch screen, multitouch; The number of pixels per inch (PPI) no less 225; no less G72 MP3 video processor; Wireless communication Wi-Fi support, no less Wi-Fi 802.11ac, WiFi Direct; Support for Bluetooth, Bluetooth no less 5.0, nano SIM.	1
