

AQSH va O'zbekiston Ilmiy almashinuvi

The purpose of the US National Fund funded a grant called (NSF Grant # 1302873, NSF Grant # 1658672, NSF Grant # 1826490) is to ensure that peer students and professors from the University of Fullerton, California will visit to Uzbekistan and share their knowledge and skills. During the program, research will be conducted in various fields of science in Uzbekistan and the United States: including Physics, Chemistry, Mathematics, Biology etc. I would like to emphasize that the guests will not only conduct research, but also are acquainted with our culture and traditions. During the research, their visits to Ancient historical cities such as Khiva, Bukhara, and Samarkand will be provided.
