

As a Public University is included in the state program to provide women with professional and educational skills and employment, further support for entrepreneurial initiatives. At the same time, Urgench State University aims to bring the work on the systematic study, analysis and solution of women's problems, needs and interests to a qualitatively new level. The name targets and compass the following areas:

- increasing the social and political participation of women, popularize the content and importance of reforms to support them;
- providing women with education and professional skills, to help them find decent jobs, to support entrepreneurship, to identify talented young women and to direct their abilities;
- Improving the quality of medical and social services provided to women in the regions, especially in rural areas, and the effectiveness of work to ensure a healthy lifestyle among them;
- establish systematic measures to provide housing for women in need, improve living and working conditions, and increase incomes;

-in-depth analysis of issues related to women's rights and legitimate interests, development of proposals to improve legislation and practice to address existing problems based on best practices.

In addition, our unemployed women will receive additional salaries based on the number of children and will be provided with internships. Women who work in the public sector are paid extra based on their length of service after childbirth, and the state provides ample opportunities for their children to undergo free screenings and free vaccinations at family clinics. The University has also created a wide range of opportunities for women with children and will always support them.
