

Nowadays, the Cabinet of Ministers has adopted a decision on the development of tourism in Uzbekistan as well as poverty reduction. According to the decision, Urgench State University coming with several initiatives aimed at the development of tourism in Khiva. Those initiatives include providing financial assistance to some vacant buildings, furthermore creating conditions for students to conduct operations on the premises. At the same time, in order to develop tourism, students studying in foreign languages are entrusted with the history of our country through various programs. Providing the paramount history of Khiva city, the idea would fascinate the visitors from inside and outside of the country which in turn help creating more jobs in the local communities of Khiva. It also provides accommodation for students studying in other provinces.

In addition, the University will create the necessary conditions for students to conduct business trainings by leading and well-known entrepreneurs of Uzbekistan and present their business projects to talented students. Besides, the University conducts many business training and jobs fairs to combat disabilities and poverty.

In early 2020, for the first time in the history of Uzbekistan, the concept of poverty was raised by President of the Republic of Uzbekistan Shavkat Mirziyoyev and, and this area has become the main agenda of socio-economic policy. In this regard, Urgench state university also provides material and moral support to low-income families. Based on their specialization, the University of offers them vacancies and provides civic employment.
