

In our country, children are very important because children are a part of society. Numerous decisions and measures to protect them are presented together, so that the products at Urgench State University allow them to pay attention to the upbringing of children and take care of them after having children. Makes a secret. The language is allocated and an additional monthly stipend is given each month. After one and a half years of age, the child was taken to the kindergarten, and the product received:

- ensuring the rights, freedoms and material interests of the child, his healthy lifestyle;
- facilitate the physical, intellectual, spiritual and moral development of children;

- take measures to prevent the child from losing parental care;
- Organize the development and implementation of state programs and other programs in the field of prevention of delinquency and delinquency among children, as well as control over their implementation;

The university is not indifferent to any child in the society, because our future is in the hands of this generation!
